ENGLISH

RATIONALE

The 4th International Conference jointly organized by the **Associazione LIBRA Onlus** and the **FDE Institute of Criminology of Mantova**, will present the results of the European Project named **"ALTERNATIVES TO IMPRISONMENT. Identification and Exchange of Good Practices,,**.

The conference will be held in Milan, from 11th to 12th of March, 2016. **ALTERNATIVE TO IMPRISONMENT** will be a space for reflection and examination for Academics, Justice Practitioners, Policy Makers and Authorities as well as for Third Sector Organizations and Civil Society.

The meeting will open on other important question, for example: ***which are the scenarios and differences we are going through in terms of treatments when we work within a community sentence measure and a prison measure? Which are the most-effective measures in a restorative justice perspective? Which is***

the role of the Civil Society in that process?

The Advisory Board of the Conference think it is so important to develop good research able to provide a panoramic about the alternatives existent at EU level and to disseminate them both at policies and practices level.

With the hope that all interested people could take the opportunity to search, and maybe also to find responsible answers to these serious questions, we thank you and look forward to see you all in Milan.

Advisory Board.
